ElderCareAI Integration Testing

30 numbered cases with visible phone, watch, or admin web outcomes. Automated results verified 9 November 2026.

Proponent	Test Case ID	Module 1	Integration Process	Module 2	Precondition	Expected Result	Actual Result	Result
	INT-001	Authentication	Route a signed-in caregiver with an incomplete profile.	Onboarding	Session exists; caregiver setup is incomplete.	Caregiver setup opens.	Jest PASS	Passed*
	INT-002	Authentication	Route a signed-in caregiver after all setup steps.	Home	Session and onboarding are complete.	Home route opens.	Jest PASS	Passed*
	INT-003	Health Data	Display synchronized heart rate and oxygen.	Health Vitals	Patient has a saved vital reading.	Health shows both measurements.	Jest PASS	Passed*
	INT-004	Health Data	Interpret recorded sleep duration.	Health Vitals	Latest sleep duration is 5.5 hours.	Health shows the below-guide context label.	Jest PASS	Passed*
	INT-005	Health Data	Analyze low blood oxygen.	Health Insights	Latest SpO_2 is 92%.	Attention insight appears.	Jest PASS	Passed*
	INT-006	Health Data	Request a trend with limited history.	Health Predictions	Only two distinct readings exist.	Prediction remains pending.	Jest PASS	Passed*
	INT-007	Health Data	Project a trend from saved readings.	Health Predictions	Four distinct readings exist.	Heart-rate trend card appears.	Jest PASS	Passed*
	INT-008	Health Data	Flag abnormal readings.	Health Anomalies	Latest heart rate is 118 bpm and SpO_2 is 92%.	Both thresholds appear as anomalies.	Jest PASS	Passed*
	INT-009	Medication Schedules	Show an as-needed medication in the care plan.	Dose Status	As-needed schedule is saved.	Medication and as-needed status appear.	Jest PASS	Passed*
	INT-010	Medication Logs	Apply a taken log to a saved schedule.	Dose Status	Today's taken log matches the medication.	Care plan shows Taken today.	Jest PASS	Passed*
	INT-011	Care Plan	Save an as-needed medication.	Medication Schedules	Caregiver enters a medication name.	Schedule saves with no timed notification.	Jest PASS	Passed*
	INT-012	Care Plan	Record a medication dose.	Medication Logs	Active schedule is visible.	Taken log saves and status refreshes.	Jest PASS	Passed*
	INT-013	Appointments	Save a future visit.	Notifications	Caregiver enters a visit title and doctor.	Patient-named appointment reminder is scheduled.	Jest PASS	Passed*
	INT-014	Health Data	Export patient-scoped readings.	PDF Reports	Patient has synchronized vital history.	PDF contains patient and reading data and opens sharing.	Jest PASS	Passed*
	INT-015	Medication Schedules	Export patient medication entries.	PDF Reports	Medication schedule exists.	PDF contains the medication and instructions and opens sharing.	Jest PASS	Passed*
	INT-016	Elle Chat	Handle an assistant service failure.	Chat Persistence	AI endpoint returns an error.	Friendly error appears; no false reply is saved.	Jest PASS	Passed*
	INT-017	Appointments	Load a scheduled future visit.	Notifications	Visit and notification permission exist.	Appointment reminder includes patient, doctor, and clinic.	Jest PASS	Passed*
	INT-018	Elle Chat	Follow a medication action in an assistant reply.	Care Navigation	Reply mentions the medication schedule.	Open Meds routes to the medication tab.	Jest PASS	Passed*
	INT-019	Watch alert	Two local care reminders fire together while app is open.	Foreground queue	Controlled test fixture exists	Medication and appointment each show a separate popup and play audio.	Jest PASS	Passed*
	INT-020	Monitoring records	Supabase returns saved readings and a new event.	Analytics chart	Controlled test fixture exists	Actual values, timestamps and live updates appear; foreign rows are omitted.	Jest PASS	Passed*
	INT-021	Watch steps	Daily step RPC returns a saved total, then a higher update.	Daily history	Controlled test fixture exists	One displayed day changes to the new total without double-counting.	Jest PASS	Passed*
	INT-022	Prescription draft	Caregiver edits extracted text, adds a photo and confirms.	Medication save	Controlled test fixture exists	No medication saves before confirmation; corrected fields are saved.	Jest PASS	Passed*
	INT-023	Emergency contacts	Open contact priority and choose caregiver.	Dial action	Controlled test fixture exists	Priority list appears and only selected number opens the dialer.	Jest PASS	Passed*
	INT-024	Care plan	Load past, future and completed visits into Schedule.	Appointments	Controlled test fixture exists	Upcoming visits sort by date/time and completed activity is separate.	Jest PASS	Passed*
	INT-025	Watch pairing	Open the watch pairing screen from phone setup.	Phone pairing	Watch is not yet paired.	Phone setup and watch code entry are both visible.	Source PASS	Passed*
	INT-026	Watch monitoring	Start monitoring on the paired watch.	Phone vitals	Watch is paired and app is signed in.	Watch monitoring control and phone vital cards are visible.	Source PASS	Passed*

Proponent	Test Case ID	Module 1	Integration Process	Module 2	Precondition	Expected Result	Actual Result	Result
	INT-027	Medication editor	Add a medication with a reminder time.	Care plan	Patient is selected.	Editor time control and Care plan medication tab are visible.	Source PASS	Passed*
	INT-028	Watch medication	Open Medications on watch.	Dose confirmation	A dose is scheduled.	Watch shows Taken control and care plan shows medication status.	Source PASS	Passed*
	INT-029	Safe zone	Open patient safe zone.	Live location	Watch location exists.	Radius controls and live map are visible.	Source PASS	Passed*
	INT-030	Admin overview	Open admin system monitor.	Saved health sync	Admin has signed in.	Overview and recent sync sections are visible.	Source PASS	Passed*

* Automated pass is separate from a live screenshot. UI source checks do not prove device delivery or backend behavior.
